It's hard to see things when you're too close. Take a step back and look. There's nothing wrong with having a tree as a friend. This is the fun part We'll put all the little clouds in and let them dance around and have fun.

You gotta think like a tree. It is a lot of fun. Let's put some happy trees and bushes back in here. There comes a nice little fluffer. Life is too short to be alone, too precious. Share it with a friend. Maybe there was an old trapper that lived out here and maybe one day he went to check his beaver traps, and maybe he fell into the river and drowned.

I really believe that if you practice enough you could paint the 'Mona Lisa' with a two-inch brush. In your world you have total and absolute power. Clouds are free they come and go as they please. We spend so much of our life looking - but never seeing.

Be careful. You can always add more - but you can't take it away. It's a very cold picture, I may have to go get my coat. It's about to freeze me to death. That's what painting is all about. It should make you feel good when you paint. This is your world, whatever makes you happy you can put in it. Go crazy. These little son of a guns hide in your brush and you just have to push them out. Follow the lay of the land. It's most important.

In your imagination you can go anywhere you want. Use your imagination, let it go. Don't fiddle with it all day. Learn when to stop.

Everything is happy if you choose to make it that way. If there's two big trees invariably sooner or later there's gonna be a little tree. Every single thing in the world has its own personality - and it is up to you to make friends with the little rascals. You can do anything your heart can imagine. We're not trying to teach you a thing to copy. We're just here to teach you a technique, then let you loose into the world. Exercising the imagination, experimenting with talents, being creative; these things, to me, are truly the windows to your soul.

I like to beat the brush. Little trees and bushes grow however makes them happy. Let's get crazy. The man who does the best job is the one who is happy at his job. It's beautiful - and we haven't even done anything to it yet.

It's hard to see things when you're too close. Take a step back and look. There's nothing wrong with having a tree as a friend. This is the fun part We'll put all the little clouds in and let them dance around and have fun.
